# Ki-ose® Range

## DISINFECTANT AND CLEANING PRODUCT

The Ki-ose® range of surface disinfectant cleaners have specially developed for the disinfectant cleaning of interior surfaces within aircraft. Formats range from ready-to-use solutions to concentrates and practical wipes. Ki-ose® is used by cleaners and cabin crew for many applications in the cockpit, cabin, galleys and lavatories, including surfaces in contact with food, trolleys, seats and seat belts, tray tables and overhead lockers. Approved for use in aircraft, our Ki-ose® range is safe to use and will not damage fabrics, plastic, metals, rubber or other surfaces. Ki-ose® has been dermatologically tested.

**Ki-ose® solutions comply with AMS 1453, AMS 1550, Boeing D6-7127 and BSS 7434, and are included in various applications of the Airbus CML.**
